QUALITY AND SAFETY IN PRODUCTION OF ELECTRICAL INSTALLATION MATERIALS

Sklopke i priključnice PRESTIGE line oplemenjene su jednostavnošću tehničkih rešenja i izuzetno lakom ugradnjom.

Izrađene su savremenim tehnološkim postupkom od visokokvalitetnih materijala.

PRESTIGE line switches and socket outlets are enriched due to their simplicity of technical solutions and very simple installation.

Products are made by modern technological process and with high quality materials.

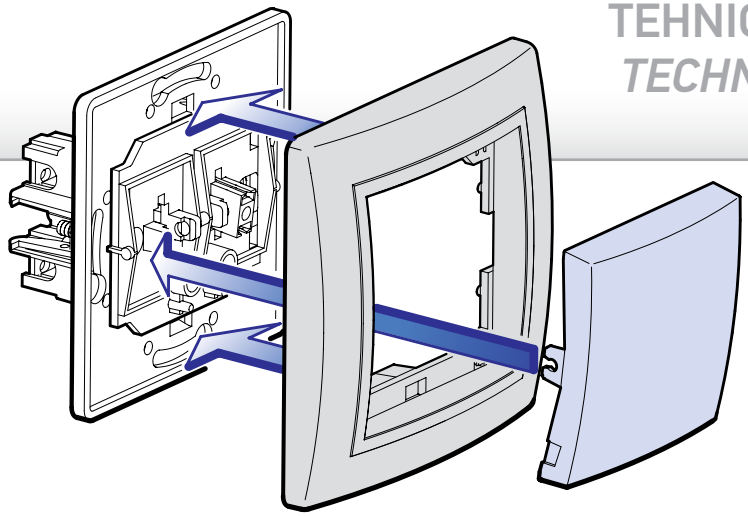
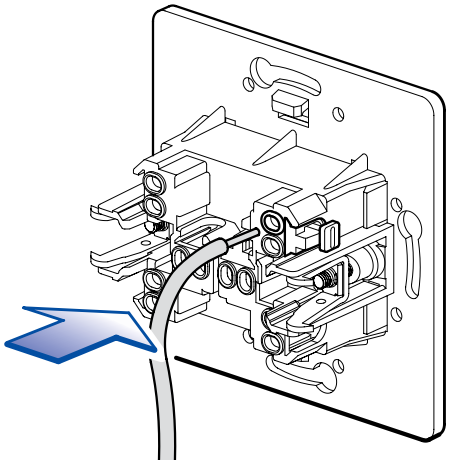
TEHNIČKE PREDNOSTI
TECHNICAL ADVANTAGES



Masku i taster sklopke postavljamo i skidamo veoma jednostavno.
Ova kombinacija će Vam i pored jednostavnosti obezbediti dugotrajan i pouzdan rad.

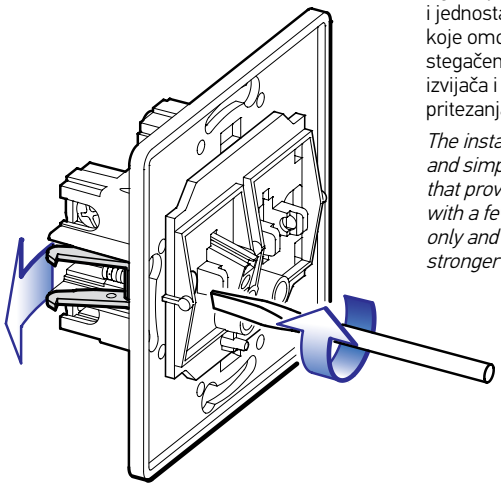
Installation of decorative cover frame and switch button is very simple and easy. Beside simplicity, this combination is providing a long and reliable usage.

BEZVIJČANA MONTAŽA
SCREWLESS INSTALLATION



Bezvijčani kontakti omogućuju pouzdanu i brzu montažu do dva provodnika preseka 2,5 mm^2, bez upotrebe alata za stezanje.

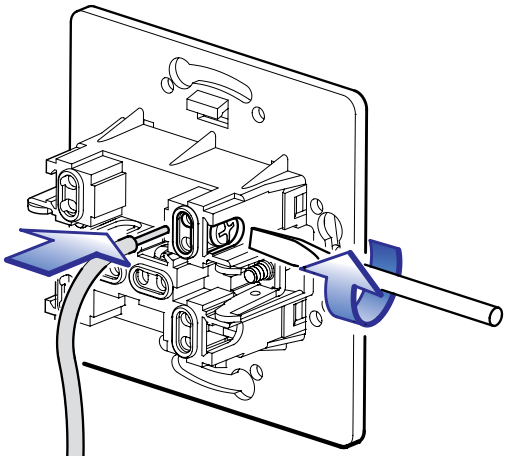
Screwless contacts are allowing safe and fast installation up to two conductors with diameter 2,5 mm^2, without screwdriver.

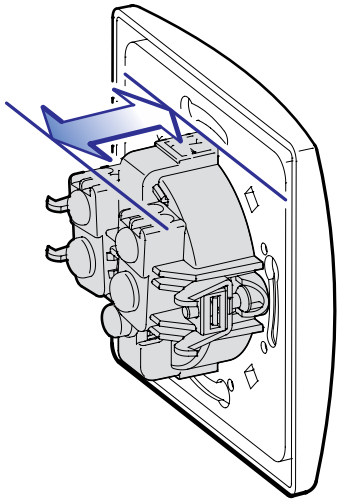


Ugradnja pomoću stegača je brza i jednostavna zahvaljujući rešenju koje omogućava pritezanje stegačem sa vrlo malo okretaja izvijača i bez potrebe jačeg pritezanja vijka.

The installation by clamps is quick and simple thanks to the solution that provides tightening by clamps with a few screwdriver turnings only and without any necessity for stronger screw tightening.

VIJČANA MONTAŽA
INSTALLATION WITH SCREWS





Plastična priključnica je izrađena tako da zauzima veoma malo prostora u montažnoj kutiji čime se montaža pojednostavljuje zbog većeg prostora za smeštaj provodnika.

Socket outlet is made to take a very little space in installation box. Installation is simple because of enough space for conductors.

Pritezanje provodnika obezbeđeno je pouzdanom i sigurnom vijčanom vezom za provodnike preseka do 4 mm^2. Priključivanje provodnika je veoma brzo jer je obezbeđeno njegovo postavljanje bez mogućnosti isklizavanja tokom pritezanja.

The tightening of conductors is provided by the reliable and safe screw joint for the conductors section to 4 mm^2. The connecting of conductors is very quick as their setting up is secured without any possibility of slipping out during tightening.
